Miles of Chocolate was created out of a love for food and an appreciation for its role in our lives. Food is something we celebrate: sometimes with ourselves, sometimes with others. We offer Miles of Chocolate in honor of the simple experience that is chocolate. Miles of Chocolate.

Simplicity. Care. Quality.

Press Clips

"A friend showed up on my porch one day with a chunk of Miles Compton's decadent chocolate treat that's a cross between a brownie and truffle. It was love at first bite."

-Virginia B. Wood

"They look like brownies but they're more like a melt-in-your-mouth confection. They're perfect as-is, but for those of us who like to serve them with a fruit sauce Mr. Compton's website gives recipes for cherry and raspberry sauce."

-Susan Taylor
